4.3	Процесс создания поста	10
4.4	Пост	11
4.5	Процесс создания поста	12
4.6	Пост про отчет	12

Список таблиц

1 Цель работы

Продолжить редактирование своего сайта. Добавить ссылки на научные ресурсы.

2 Задание

Разместить ссылки на научные ресурсы на сайте. Сделать пост по прошедшей неделе. Добавить пост на тему по выбору: 1. Оформление отчёта

2. Создание презентаций

3. Работа с библиографией

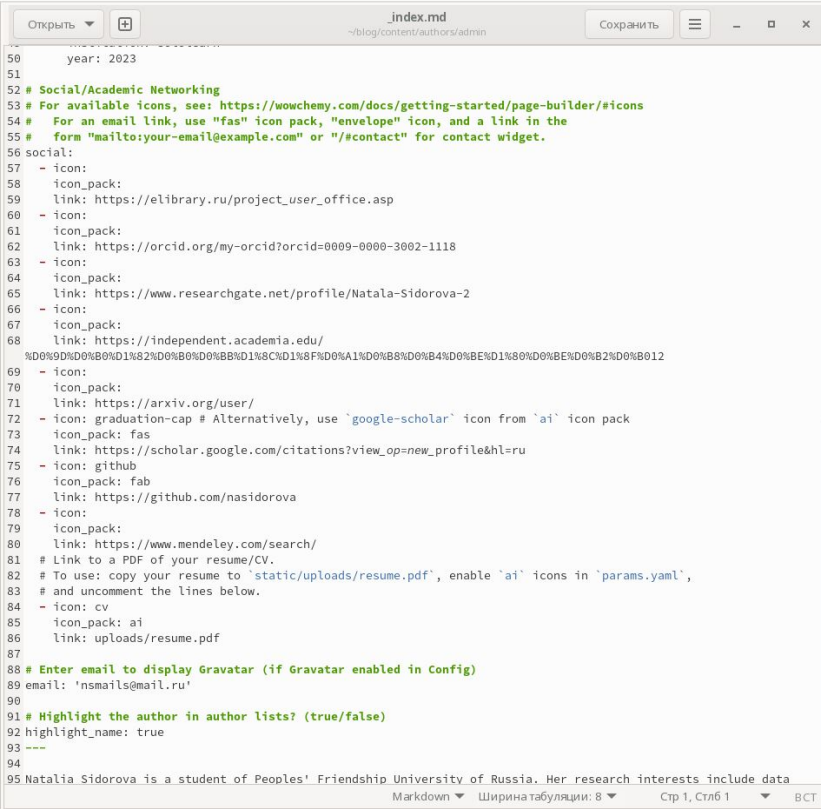

3 Теоретическое введение

Сайт – это совокупность веб-страниц, объединённых под общим доменом и связанных ссылками, тематикой и дизайнерским оформлением. Мы создали статический сайт с помощью Hugo. Hugo — генератор статических страниц для интернета.

В этом этапе я напишу пост про оформление отчета. Отчет — это структурированное сообщение о результатах вашей работы, которое вы делаете в устной или письменной форме.

4 Выполнение лабораторной работы

Добавила ссылки на научные и библиометрические ресурсы. (рис. 4.1).

43 ## Overview
44
45 1. Last week I successfully coped with the test in mathematical logic. I did several labs on operating systems and algebra at once. All in all, the week was pretty productive.
46
47 2. It's finally warm and sunny outside, so you can put on lighter and brighter looks again. I began to walk more and began to participate in the step challenge

How was my third week

Welcome 🌤️ I know you are very interested to know how my third week went.

Natalia Sidorova

Apr 24, 2020 · 1 min read · 📄 post 3

Overview

1. Last week I successfully coped with the test in mathematical logic. I did several labs on operating systems and algebra at once. All in all, the week was pretty productive.
2. It's finally warm and sunny outside, so you can put on lighter and brighter looks again. I began to walk more and began to participate in the step challenge

Рис. 4.4: Пост

Сделала пост про оформление отчета (рис. 4.5).

39
40 ---
41
42
43 ## What is a report?
44
45 A report is a structured report about a conference meeting that you include orally or in writing.
46
47 Typically, the following elements should appear in the report:
48
49 1. Target
50 2. Tasks
51 3. Theoretical Introduction
52 4. Job Description
53 5. Results
54 6. Bibliography
55
56 ## How to make a report?
57
58 1. A solid goal has already been set before the work is done, which is why it follows in the report. The main thing
59 is to formulate it correctly, competently and concisely.
60 2. Based on the goals, you are put forward (or you make up yourself) the tasks that must be completed in order to
61 achieve the desired result. It is better to write tasks in the report under hotel numbers (you can also select sub-
62 items if necessary).
63 3. In the theoretical introduction, you should write information related to your work. It can be a definition of a
64 definition along with examples, or a description of just some process/action/object.
65 4. Next, you need to describe all the stages of work (it is impossible to give explanations), it is advisable to
66 reinforce these stages with images (they need to be signed and links to them in the necessary places).
67 5. The results are formulated in accordance with the objectives. They should also be short enough.
68 6. The sources from where you took the information for the theoretical introduction must be indicated at the end of
69 your report (they must be drawn up in accordance with GOST).
```

Рис. 4.6: Пост про отчет

5 Выводы

В процессе выполнения этого этапа проекта я добавила на сайт ссылки на свои научные аккаунты, а также написала два поста.
